MAJOR ITEM

The Major Item Truck, Utility: ¼-ton, 4x4, M38 is stored, issued, and reviewed under ORD 3 SNL G–1. This item is nonexpendable.

*This supply manual supersedes ORD 9 SNL G-740, 19 November 1951

INTRODUCTION

1. GENERAL. *a.* This supply manual is an illustrated list of all service parts of the M38 1/4 ton 4x4 utility truck arranged according to standard government grouping.

NOTE: Many of the parts listed herein are not stocked for issue. See ORD 7 and ORD 8 sections of this supply manual, for listings of those parts stocked and authorized for issue to the various levels of maintenance. When parts not listed in the ORD 8 are needed, separate requisitions for these parts should be forwarded through normal supply channels with justification therefor.

b. This list of all service parts is to be used for identification and storage purposes. Every individual part is not necessarily stored by itself; many parts are stored as authorized assemblies. Such assemblies are indicated herein. The components of such assemblies are listed alphabetically within the group, with the total quantity of each part required for that particular application.

c. The Federal stock number column lists the 11-digit Federal stock number (or the 7-digit Federal item identification number) which has been assigned by the Cataloging Division, Office of the Assistant Secretary of Defense (Supply and Logistics). These numbers are for information only and will not be used in connection with supply operations, until such time as implementation of the Federal-Cataloging Program is accomplished through editing action on appropriate supply documents (requisitions, issue slips, excess lists, etc). *However where no Ordnance stock number is listed, the Federal stock number will be used for requisitioning purposes and must be suffixed with the mission assignment code, e.g., (2910–735–1316–G740).*

d. Classification codes for Federal Standard stock catalog numbers listed herein are published in ORD 5–2.

e. For prices of items contained herein, see the appropriate supply manual of the ORD 5–3 series.

f. Additional applications of items in this manual are listed in the ORD 5–5 series.

g. An explanation of reference symbols used in this manual is included under NOTES.

h. For full information relative to the Ordnance Section of the Department of the Army Supply Manual, including the purposes and uses, the procedure followed, and the principles employed in its compilation, see ORD 1 and for an index thereof see DA Pam 310–29.

2. MAJOR ITEM DESIGNATION. The major item covered in this manual is designated as a general purpose vehicle as defined in AR 700–105.

3. PUBLICATIONS PERTAINING TO THIS VEHICLE. The following technical manuals pertain to this vehicle and components thereof:

TM 9–804 (TM 9–8012), TM 9–1804A, TM 9–1804B, TM 9–8627, TM 9–1825B, TM 9–1826A, TM 9–8651, TM 9–1827C, and TM 9–1828A.

4. INTERCHANGEABILITY OF COMPONENTS. Several parts and accessories of the M38 engine are interchangeable with corresponding parts of the Willys Model MB. Several parts of the electrical system are interchangeable with other general purpose vehicles with 24-volt electrical systems.

5. SERIAL NUMBER LOCATIONS. Serial numbers for this vehicle are located as follows:

Complete vehicle:

10001 and up.....Stamped on name plate located on instrument panel.

Engine 10001 and up.Stamped on water pump boss located on top of cylinder block, front end of engine.

6. ILLUSTRATIONS. This supply manual contains illustrations to aid the user in locating and identifying parts. These are placed before each group for convenient reference in connection with the text for that group. For each part identified on an illustration, the noun, part number, and group number of the item are given. The prefix to the figure number indicates the group to which it pertains, the suffix indicates the sequence number within that group (e.g., figure 01–5 signifies illustration number 5 for group 01).

7. COMPONENTS OF ASSEMBLIES. Whenever any doubt might exist as to what items are included as components of assemblies, an explanatory note or a complete listing of such components is shown.

8. ATTACHING PARTS. Attaching parts such as bolts, nuts, rivets, washers, etc, are indented immediately under the item which they attach. Whenever two or more similar items having the same attaching parts, such as right and left fenders, are listed, they are placed one immediately following the other and the attaching parts for *both* are covered by a single listing under the second item.

9. DEFINITION OF LOCATIONAL TERMS. The flywheel end of the engine is considered the *rear* and the fan end the *front* of the engine. The *right* and *left* sides of the engine are determined by standing at flywheel and looking toward the fan. All other components are designated *left* and *right* as viewed from the rear of the vehicle facing forward.

10. DESCRIPTION. All items are listed with their complete nomenclature with the exception noted in *a.* below.

a. Items appearing within a subgroup that lists components of, and/or items related to only *one* assembly or subassembly automatically assume as part of their official nomenclature the title of the pertinent subgroup. Example: "AXLE, float lever" is an entry in subgroup 0301. The complete nomenclature of the item is "AXLE, carburetor float lever", "CARBURETOR" being the subgroup title.

b. Items appearing within a subgroup that lists *more than one* assembly or *more than one* group of related items are listed with their complete nomenclature. Example: "BRACKET, muffler support clamp", is an entry in subgroup 0401. The complete nomenclature of the item is as shown, the title of the subgroup being "MUFFLER AND EXHAUST PIPE".

11. QUANTITY INCORPORATED IN UNIT. The quantity incorporated in unit column lists quantities for the following:

a. For vehicle parts which are not indented, the quantity indicates the number of those parts required for the particular use indicated. These quantities do not indicate the total quantities of the parts required for the major item since the part may be used in more than one subgroup.

b. For vehicle parts which are indented (attaching parts), the quantity indicates the number of these parts required to attach the item. These quantities do not indicate the total quantities of the attaching parts required for the major item or subgroup, since the attaching parts may be used in more than one subgroup, and may also be used more than once within a subgroup.

12. HOW TO FIND PARTS. This supply manual is arranged and cross-indexed so that parts can be found easily even though only one of the several identifying factors is known. The various ways in which parts can be located are as follows:

a. If only the nomenclature (basic nounname) is known, refer to the alphabetical index in the back of the manual. This index will give the subgroup in which the part is listed. As the part names are arranged in alphabetical order within this subgroup, the complete listing of the part can readily be found.

b. If any one of the numbers – ordnance stock, federal stock, manufacturer's or ordnance part number – is known, refer to the appropriate numerical index in the back of the manual. These indexes will give the subgroup number in which the part can be found by following the procedure given in *a.* above.

c. If the shape, use, function, or location of the part is known, refer to illustrations in which the part is likely to appear until a picture of the part is found. The part will be keyed to a listing of the name, part number, and subgroup number, which will permit locating the complete listing of the part.

13. STOCK NUMBERS. The prefix letter and number of the stock number (i.e., G501, G503, G741, etc) usually signifies that the particular part or component was originally coded under the major item designation for that SNL and does *not* mean that the part is used *only* in that major item. All subsequent supply manuals for different items will include the same stock number for this same part.

14. STANDARD GOVERNMENT GROUPING. The parts listed in this manual are arranged by groups and subgroups and alphabetically within these subgroups. Parts are grouped primarily on the basis of their function rather than location. This arrangement facilitates identification and selection of

parts. Refer to paragraph 12, "HOW TO FIND PARTS".

01—ENGINE

0100.1	Power Plant Assembly
0100.2	Engine Assembly
0101	Cylinder Block and Head
0102.1	Crankshaft
0102.2	Main Bearings
0103	Flywheel
0104.1	Pistons and Piston Rings
0104.2	Connecting Rods and Bearings
0105.1	Valves, Springs, and Guides
0105.2	Valve Tappets
0105.3	Camshaft
0105.5	Camshaft Driver and Timing Gear Cover
0106.1	Oil Pump
0106.2	Oil Filter
0106.5	Crankcase Ventilation
0106.6	Oil Lines, Level Gage, and Oil Pan
0108	Manifold and Heat Control

02—CLUTCH

0201	Disk and Pressure Plate
0202	Release and Controls

03—FUEL SYSTEM

0301	Carburetor
0302.1	Fuel and Vacuum Pump
0304.1	Air Cleaner
0304.5	Underwater Vent System
0306	Fuel Tank and Lines
0309	Fuel Filter
0311.1	Primer Pump
0311.3	Primer System – Lines and Fittings
0312	Accelerator, Hand Throttle, and Choke Control

04—EXHAUST SYSTEM

0401	Muffler and Exhaust Pipe

05—COOLING SYSTEM

0501	Radiator
0502	Radiator Air Deflectors and Seals
0503	Water Lines and Thermostat
0504	Water Pump
0505	Fan Belt and Pulley

06—ELECTRICAL SYSTEM

0601.1	Generator (24-Volt) (Auto-Lite)
0601.3	Generator (24-Volt) (Delcoy-Remy)
0602	Generator Regulator (24-Volt)
0603	Starter
0604.1	Distributor
0605	Ignition Coil, Wiring, and Spark Plugs
0607	Instrument Panel
0608	Miscellaneous Switches and Circuit Breakers
0609.1	Head, Tail, Marker Lights and Lamp-Units
0610	Sending Units

06—ELECTRICAL SYSTEM—Continued

0611	Horn
0612	Batteries, Hangers, Boxes, and Cables
0613.1	Chassis Wiring
0615	Radio Suppression
0617	Trailer Couplings

07—TRANSMISSION

0700	Transmission Assembly
0701	Case
0702.1	Input Drive Gear, Bearing, and Cover
0702.3	Main Shaft, Gears, Bearings, and Synchronizer
0702.5	Countershaft, Idler Shaft, Gears, and Spacers
0704	Gear Shift Lever, Shafts, and Forks

08—TRANSFER

0800	Transfer Assembly
0801	Case and Covers
0802.1	Input Shaft
0802.3	Countershaft
0802.5	Front Axle Output Shaft
0802.7	Rear Axle Output Shaft
0804	Shifter Shafts, Forks, and Gear Shift Hand Levers

09—PROPELLER SHAFT AND UNIVERSAL JOINTS

0900	Propeller Shaft and Universal Joints

10—FRONT AXLE

1000	Front Axle Assembly
1001	Housing, Cover, and Plugs
1002	Differential
1004	Steering Knuckles
1005.5	Ventilation
1006	Front Axle Shaft and Universal Joints

11—REAR AXLE

1100	Rear Axle Assembly
1101	Housing and Cover
1102	Differential
1104.1	Rear Axle Shaft
1105.5	Ventilation

12—BRAKES

1201	Hand Brake
1202	Service Brake Assembly
1204.1	Master Cylinder
1204.3	Wheel Cylinders
1204.5	Lines and Fittings
1206	Pedal and Connections

13—WHEELS, HUBS, AND DRUMS

1311	Wheels, Hubs, and Drums
1313	Tires and Tubes

14—CONTROLS

1401	Steering Controls

15—FRAME AND BRACKETS

1501	Frame Assembly and Brackets
1503	Pintle and Towing Attachments
1504	Spare Wheel Carrier

16—SPRINGS AND SHOCK ABSORBERS

1601.1	Front Springs
1601.3	Rear Springs
1604.1	Shock Absorbers

17—FENDERS AND HOOD

1701	Fenders
1703	Hood

18—BODY

1800	Body Assembly
1801	Body Mounting Parts
1803.1	Tailgate
1804.1	Body Panels, Pillars, Sills, and Moulding
1804.2	Body Cowl
1804.3	Windshield, Ventilator, and Glass
1805	Body Floors and Seals
1806	Seats, Crash Pads, Trim, and Upholstery
1808	Stowage Racks, Boxes, and Straps

20—WINCH AND POWER-TAKE-OFF

2001.1	Winch Assembly and Drum
2001.3	Winch Drive Shaft
2001.5	Winch Controls
2002.1	Power-Take-Off Assembly
2002.5	Power-Take-Off Controls

21—BUMPERS AND GUARDS

2101	Bumpers, Brackets, Guards, and Protective Devices

22—MISCELLANEOUS ACCESSORIES

2201	Canvas Items, Bows, and Curtains
2202	Mirrors, Reflectors, and Windshield Wipers
2208.1	Speedometer
2210	Vehicular Data Plates

15. LIST OF ABBREVIATIONS. The following is a list of abbreviations appearing in this manual:

adj	adjust, adjustable
al	aluminum
alloy-S	alloy steel
amp	ampere
amp-hr	ampere hour
anld	annealed
aprx	approximate
AS	American Standard
asb	asbestos
assy	assembly
AWG	American Wire Gage
b-hd	button head
blk-enmld	black enameled
blunt-pt	blunt point
br	brass
brg	bearing
bz	bronze
cd-pltd	cadmium plated
CI	cast iron
ck	countersunk
cp	candlepower
cop	copper
corr-res-S	corrosion resistant steel
cup-pt	cup-point
dble	double
dble-tun-fil	double tungsten filament
deg	degree (angle)
diam	diameter
dld-hd	drilled head
ea	each
elec	electric, electrical
ext-teeth	external teeth (lockwasher)
fil-hd	fillister head
fin	*finish, finishing*
fl-hd	flat head
ft	foot, feet
frt	front
ga	gage
gimlet-pt	gimlet point
glvd	galvanized
hd	head
hdls	headless
header-pt	header point
hex	hexagonal
hex-hd	hexagon head
hex-lt	hexagon light
hv	heavy
hyd	hydraulic
ID	inside diameter (dimension)
in.	inch, inches
incand	incandescent
ins	insulated, insulating, insulator
instr	instrument
int-teeth	internal teeth (lockwasher)
ld-ctd	lead coated
lg	long
lgh	length
LH	left hand
lkg	locking
lt	light (weight)
M	Model
mach	machine
med	medium
MI	malleable iron
MIL-STD	Military Standard
min	minimum
mm	millimeter
mtg	mounting
NC	National Coarse Thread
NEF	National Extra Fine Thread
NF	National Fine Thread
ni-S	nickel steel
No.	number
NPT	National Taper Pipe Thread
NPTF	National Taper Pipe Thread Fine
NS	National Form Thread, Special Pitch
OD	outside diameter
oval-hd	oval-head
pan-hd	pan head

phos-ctd	phosphate coated
pl	plain
pltd	plated
psi	pounds per square inch
pt	point
rad	radius, radial
rd	round
rd-hd	round head
reg	regular
reqd	required
RH	right hand
ru	rubber
rvrs	reversible
S	steel
SAE	Society of Automotive Engineers
sec	section
s-fin	semifinished
sgle	single
sgle-cond	single conductor
sgle-hd	single head
sgle-tun-fil	single tungsten filament
sh-met-thds	sheet metal threads
sh-met	sheet metal
sltd	slotted
socket-hd	socket-head
sp	special
spec	specification
sq	square
sq-drive	square drive
sq-hd	square head
sq-nk	square neck
sq-nut	square nut
sq-socket	square socket
SR	single row
std	standard
stght	straight
stk	stock
syn-ru	synthetic rubber
T	teeth
taper-pt	taper point
thd-(s)	thread, threaded, threads
thk	thick
tnd	tinned
tn-fin	tinned finished
UNC	United National Coarse
UNF	United National Fine
unfin	unfinished
US std	United States standard
v	volt
w/	with
w/o	without
wtrprf	waterproofed
x	by (as in dimensions only, as 2 x 4)
zn	zinc
zn-dichromate	zinc dichromate
zn-pltd	zinc plated

16. LIST OF MANUFACTURERS' SYMBOLS. The following is a list of symbols preceding the manufacturers' part numbers in this manual:

Symbol	*Manufacturer*
AB	Aetna Ball and Roller Bearing Mfg Co
ABF	Auburn Mfg Co
AC	AC Spark Plug Div (General Motors Corp)
ACD	American Chain Co (Div American Chain & Cable Co)
AE	Appleton Electric Co
AHC	Anchor Coupling Co
AL	Electric Auto-Lite Co, The
AN	Ainsworth Mfg Corp
ANB	Anderson Brass Company
AOD	Air-Loc Mfg Co
APB	Appliance Mfg Co
AX	Aerovax Corp
B&B	Borg & Beck Div (Borg-Warner Corp)
BX	Bendix Products Div (Bendix Aviation Corp)
CA	Columbus Auto Parts Co, The
CAR	Carter Carburetor Corp
CAS	Cascade Rubber, Inc
CC	Chrysler Corp
CCL	Corbin Cabinet Lock Co
CCS	Chicago Screw Co
CED	Cannon Electric Development Co
CM	Chicago Rawhide Mfg Co
CP	Champion Spark Plug Co
CHV	Chace Co, W. M.
CU	Cuno Engineering Corp
DGM	Detroit Gasket & Mfg Co
DM	Douglas Mfg Co, H. A.
DN	Donaldson Co, Inc
DR	Delco-Remy Div (General Motors Corp)
DV	Dole Valve Co, The
EAT	Eaton Mfg Co
EN	Elastic Stop Nut Corp
FS	Smith Mfg Co Inc, F. A.
GE	General Electric Co
GKS	Great Lakes Supply Corp
GL	Guide Lamp Co
GPC	Garlock Packing Co, The
HAC	Hall Lamp Co, C. M.
HLH	Holland Hitch Co
HMP	Hamilton Metal Products Co
HP	Harris Products Co
HY	Hyatt Bearings Div (General Motors Corp)
IL	Industrial Lamp Corp
IM	Illinois Iron & Bolt Co
KHW	Kelsey Hayes Wheel Co
LO	Wagner Electric Corp
MAE	Monroe Auto Equipment Co
MAT	Mather Spring Co
MDR	McCord Corp
MRC	Marlin-Rockwell Corp
MSP	Midland Steel Products Co, The
N&J	North & Judd Mfg Co
ND	New Departure Div (General Motors Corp)
NMP	National Machine Products Co
OKS	Oakes Products Div (Houdaille-Hershey Corp)
ONB	Ohio Nut & Bolt Co
P	Picatinney Arsenal
PC	Packard Electric Div (General Motors Corp)

Symbol	*Manufacturer*
PEE	Presstite Engineering Co
PG	Pierce Governor Co
RG	Ross Gear & Tool Co
RMC	Rich Mfg Co
RWM	Ramsey Winch Co
SCI	Scintilla Magneto Div (Bendix Aviation Corp)
SDH	Standard Thompson Corp
SEPC	Sealed Power Corp
SF	Sterling Siren Fire Alarm Co Inc, The
SHA	Shakespeare Products Co
SMA	Smith Corp, A. O.
SP	Dana Corp
SPR	Sprague Electric Co
SPT	Spencer Thermostat Co
SPW	Sparks-Withington Co, The
SRM	Soreng Mfg Corp
SZ	Schwitzer Cummins Co
TI	Titeflex, Inc
TIM	Timken Roller Bearing Co, The
TNP	Tinnerman Products, Inc
TR	Torrington Co, The
TRI	Trico Products Corp
UC	United Carr Fastener Corp
USL	Auto-Lite Battery Corp
VC	Van Cleaf Brothers
VG	Victor Mfg & Gasket Co
WB	Willard Storage Battery Co
WER	Wagner Mfg Co, E. R.
WG	Warner Gear Div (Borg-Warner Corp)
WH	Weatherhead Co, The
WIL	Eaton Mfg Co
WO	Willys-Overland Motors, Inc
ZP	Skinner Purifier Div (Bendix Aviation Corp)

17. SUGGESTIONS AND RECOMMENDATIONS. Notice of discrepancies and recommendations should be forwarded through command channels to the Chief of Ordnance, Department of the Army, Washington 25, D.C., ATTENTION: ORDFM-Pub.

NOTES

Explanation of Symbols

H1 SNL symbols such as H1, H2, etc, refer to the SNL in which the item is reviewed.

‡ As required.

ALPHABETICAL INDEX

This index does not include standardized hardware or attaching or associated parts which are indented under the primary item and which are not otherwise listed in their own alphabetical order in the supply manual. Such parts are readily found by referring to the item which requires their use. To find the attaching parts for the starter switch, for example, locate the "SWITCH, starter" in this index and refer to referenced subgroup (0603), where the indented attaching parts for the switch (SCREW AND WASHER) will be found.

ITEM	SUBGROUP
ABSORBER, shock	1604.1
ACTUATOR, light switch	0607

ORDNANCE AND MANUFACTURERS' PART NUMBER INDEX

This index is prepared in strict numerical sequence; that is, all letters or dashes prefixed, suffixed, or interspersed in the numbers are disregarded. For instance: WG–T90A54A is in sequence as 9054, but the complete number, including the manufacturer's symbol as the prefix, is shown in the listing. All ordnance numbers appear without any symbol prefix. Ordnance standard part numbers are not included generally in this index because they refer to standard items which may appear in various groups or already have a common application in the supply system and are not necessarily peculiar within an index of this kind.

ORDNANCE STOCK NUMBER INDEX

This index includes two types of stock numbers which are not intermixed–the SNL-prefix type G758–8329746, and the stock-class-code (manufacturer's numerical symbol) – prefix type (9240–FC6010). These numbers are each arranged numerically by types. H-, J-, and K-group numbers are not included generally in this index because they refer to standard items which may appear in various groups or already have a common application in the supply system and are not necessarily peculiar within an index of this kind.
